

AEGIS tutorial disk

What's on the disk?

Full web-based CD with 50 Flash tutorials on AEGIS skills. Site licence only.

The disk is arranged in 'sessions' of progression in GIS skills. Each session has several animated guides demonstrating how to use different AEGIS skills for these purposes.

Exploring AEGIS worksheets

- 1** Getting started with the Microclimate worksheet
- 2** Exploring the Studland worksheet
- 3** Working with Italy and World development worksheets

Editing worksheets

- 4** Making new worksheets from existing ones
- 5** Altering and adding data tables

Creating worksheets 1

- 6** Preparing a microclimate exercise
- 7** Setting up a glaciation exercise with pictures and notes
- 8** Downloading Shapefiles from the web

Creating worksheets 2

- 9** Preparing a traffic survey
- 10** Land use mapping
- 11** Using grid references and GPS

The disk also contains a checklist for AEGIS skills in three stages which can be used for CPD purposes within the Geography Department.
