

Advisory Unit's OS Mapping Subscription Service

The Advisory Unit is pleased to announce that all schools (including independents and academies) can now order large-scale Ordnance Survey digital maps for AEGIS.

Just let us know what you require (up to 4 maps) and we will send you a disk with the maps already in AEGIS files making it easier for you to add your own data. You can choose 4 maps all with the same scale or choose a mixture of scales.
